

# Connectivity & Interfacing

## We make interfacing easy.

As the leader in connectivity and interfacing, TELCOR has extensive knowledge and expertise in this area. We are vendor neutral allowing customers to select the vendor that works best for their business. We have developed proprietary mapping tools and processes allowing us to interface with any LIS, payer, clearinghouse, bank, document management system, and other proprietary systems utilizing their specifications and connectivity requirements. We make interfacing easy.

Below is a list of payers and vendors for which connectivity and data exchange has been performed. If the vendor or payer of your choice is not on the list, we can work with them to ensure connectivity.

## Clearinghouse/Payer List

Allscripts PayerPath	Experian <i>(formerly Passport Health/Wave HDC)</i>	Medicare via Inovalon NSV
Availity <i>(formerly RealMed)</i>	FrontRunner	Office Ally

Citizens Bank	Frost Bank	Pinnacle Bank	
Comerica	Hancock Whitney	PNC Bank	

## Document Management Systems/Imaging Vendors

We encourage laboratories and pathology practices to use the TELCOR Document Management module. If you use a different document management vendor, TELCOR Document Management module accepts documents from outside vendors as long as the data can be sent via SFTP and the files are either a PDF or a TIF.

## Vendor Host Systems

Alife	DSSI	LigoLab	Promium
Apollo	Elekta PowerPath	LIMSABC	QSS
