Connectivity Expertise

We make interfacing easy.

TELCOR is the leader in connectivity and interfacing and has extensive knowledge and expertise in this area. TELCOR is a vendor neutral company allowing our customers the opportunity to choose the vendor that works best for their business. TELCOR has developed proprietary mapping tools to allow us to interfaces with any host system, payer, clearinghouse, fax server, credit card gateway, bank, document management system and other proprietary systems utilizing their specifications. We make interfacing easy.

This document provides a list of payers and vendors for which connectivity and data exchange has been performed. However, TELCOR will interface with the vendor of your choice. If the vendor or payer of your choice is not on the list, we will work with them to ensure connectivity.
