

Discover why more than 2,500 facilities choose TELCOR for their POC Solution

▶ UNATTENDED INTERFACES WITH UNLIMITED SUPPORT

TELCOR QML® is designed to provide a solution without limitations, supporting the management and reporting requirements of the growing point of care industry and connecting all device types—regardless of manufacturer, number of devices, or number of facilities.

QML is not only the most comprehensive point of care solution, it also connects more device types and LIS/EMR systems than anyone in the industry. This provides our customers with unparalleled point of care connectivity so you can connect “everything, everywhere, point of care™.”

▶ EXTENSIVE FUNCTIONALITY & TOOLS

- ♦ Automated Alerts – Send interface alerts via text or email
- ♦ Result Exception Management – Configured by flags, ranges, or missing required data
- ♦ Operator Management – Full competency tracking including interfaces to LMS with automatic recertification options
- ♦ Device Management – Bi-directional communication and full device configurations for many
- ♦ Metrics and Statistics – Utilization, QC Levey Jennings and Linearity, TAT, and more
- ♦ Unlimited Data Mining – Unlimited filter options and data views with print, fax, PDF, email, or export options
- ♦ Security – Compliant with HIPAA, HITECH; access by role and area from anywhere
- ♦ Manual Results – Unlimited configuration and charting of patient and QC through WebMRE®

About Us

TELCOR provides connectivity and data management to more POC device types and LIS/EMR systems than any provider in the industry. We are the only POC middleware vendor with no diagnostic or LIS company ownership allowing us to connect any manufacturer's devices. With more than 10,000 device types at more than 2,500 hospitals and thousands of ambulatory sites connected to TELCOR QML, facilities are able to collect results electronically thus saving time and improving data quality. By focusing on software, we are not distracted with selling devices or reagents. We positively provide the best solutions, support, and service in the industry.
